

Incursions – Covid Safety Plan

The purpose of this is to be clear on what we're doing to protect the children in your centre, your staff & our String of Beads Parties workers in the new era of COVID-19. Also included is what we expect from the centre we're visiting to keep our staff safe too. Safety is important for all involved.

Safety Measures:

Staff Health

Our staff understand their role in limiting the spread of Coronavirus. No staff member will attend your site if they exhibit symptoms as identified by the Qld Department of Health, or have been overseas or in contact with known or suspected cases of COVID-19.

Social Distancing

String of Beads Parties staff will do their best to maintain 1.5m distance rule. This means avoiding physical contact such as engaging in high-fives or hugs at the end of the session & not leaning in close when giving help to individual students as much as possible.

Shared Equipment

Our hands-on workshops involve using shared equipment (the beads & bead design boards). All shared equipment will be disinfected before sessions, between sessions (if there are multiple groups going through the activity on the day) & after sessions.

Tables

String of Beads Parties Staff will disinfect spray & wipe down tables, before & after workshops.

Hygiene

String of Beads Parties staff will practice good hand hygiene, washing them before and after touching common equipment & between sessions. We will have our own hand sanitiser and will sanitise our hands – on entry to your site & periodically during the visit.

I've completed the Australian Govt (Department of Health) Infection Control Training COVID19 eLearning Course (Certificate dated: 11/5/2020)

What I need from your centre & staff:

- We'll need enough space so the kids can be spread out appropriately, as appropriate with the QLD Department of Health rules at the time of the incursion.
- Kids will need to be asked wash/sanitise their hands before the start of the incursion activity
- Any child who is unwell with cold/flu symptoms will need to be asked to NOT to attend the workshop

We'll do everything we can to keep your kids at your centre safe, but I need your help so we can follow the rules (& best practices) together.
